

THERMOBIO ENERGY & ENGINEERING SOLUTIONS

Operations & Maintenance • Power Plant Operations • Electrical & Instrumentation • PLC / DCS / Automation

INTEGRATED INDUSTRIAL ENGINEERING SERVICES

Ethanol Plant O&M; • Power Plant Operation • Electrical & Instrumentation Commissioning • E&I; O&M; • PLC/DCS/SCADA • Industrial Automation

SUSTAINABLE ENERGY | RELIABLE OPERATIONS | ENGINEERING EXCELLENCE

Company Profile

ThermoBio Energy & Engineering Solutions provides integrated engineering, operations, maintenance and automation services for ethanol plants, power plants and industrial energy systems.

Core Service Areas

- Ethanol Plant Operations & Maintenance
- Power Plant Operations
- Electrical Commissioning & Maintenance
- Instrumentation & Control
- PLC / DCS / SCADA & Automation
- Industrial Automation

Our Services

Ethanol Plant O&M;

Process and utility operation, preventive maintenance, breakdown support, shift operations and technical manpower.

Power Plant Operations

Boiler, turbine, generator and balance-of-plant operational support.

Electrical Services

Commissioning, testing, preventive maintenance and industrial electrical troubleshooting.

Instrumentation

Calibration, loop checking, field instruments, control valves and I/O verification.

PLC / DCS / SCADA

Programming, configuration, logic development, HMI/SCADA and control-system troubleshooting.

Industrial Automation

Sequences, permissives, interlocks, PID support, VFD integration and optimization.

Commissioning & Project Support

01 Pre-Commissioning

Installation checks, readiness assessment, cable and instrument verification.

02 Electrical

Panels, MCC/PCC, transformers, motors, VFDs and switchgear functional checks.

03 Instrumentation

Calibration, loop checking, I/O verification, control-valve checks and signal validation.

04 PLC/DCS

I/O mapping, logic, sequences, interlocks, trips and HMI verification.

05 Start-Up

Controlled energization, equipment start-up, monitoring and troubleshooting.

06 Handover

Punch-point closure, test records, operating documentation and support.
